Re: Allegheny Councilman – James Burn – responds to Rich Hill Road/County Bridge complaint. Admits this is a public safety issue and will strive to work for positive results.

To date, our only **result** is the fact that we have created awareness about this situation.

(please read from bottom to top as this is an edited email string)

If you are asking if I have heard from anyone the answer is not yet. The answer is there are public safety concerns. That is my committee. Nick Futules and I both agree we have a problem with the road and will keep on this until it is fixed.

Have a good new year; I hope to have a better result for you.

JB

Subject: RE: Harmar Township - Their portion of Rich Hill Road

Did the County review Harmar's grant application, make a final decision to grant Harmar Township the funds and inform Harmar Township of the decision? If this has occurred, can we expect to see paving trucks repairing the Harmar portion of Rich Hill Road in the spring of 2010?

Darrin
Please advise as to what?

Jim:

I never heard back from anyone on whether Harmar obtained the grant money to fix Rich Hill Road.

Please advise.

Thank you,
Darrin
