SUBJECT: Oil and Gas Drilling Committee in Allegheny County

---

Jim:

Good morning and congratulations on your victory. Sorry for the belated response.

Regarding Oil and Gas Drilling in the County, can you please appoint me to a committee of this nature if one exists at this time? If one does not exist, now might be a good time to start one.

It also might be good to appoint an "R" to show your commitment to bipartisanship.

Please advise.

Thank you,

Darrin
