Politics 101 – Onorato Style

Dear Mr. County Executive:

You gave a directive and your direct reports carried it out very nicely. The directive; having your PR department attempt to intimidate and damage the reputation of Darrin J. Krally – Indiana Township Supervisor. A blatant attempt to jeopardize his employment. The actions of your PR Department was both vindictive and an act of complete cowardice. We are quite disappointed in you and congratulate you on the politician you have become. A leader in your position is to create jobs for the community, not threaten jobs of those good, hard working elected officials who openly disagree with you.

You will not intimidate us. In conclusion, we will ask once again - please do your job and fix your bridge on Rich Hill Road now. How about paving Rich Hill Road before someone is killed?

Sincerely,

The Krally Family

Indiana Township
