Mr. Darrin Krally  
1997 Mohican Court  
Cheswick, PA 15024

Dear Mr. Krally:

I live at 35 Barnhart, which is opposite the Rural Ridge Community Center, on the other side of the Township ballfield/playground.

Between our properties we have an apple tree and had a pine tree, which slowed down the balls that landed on our property thus reducing damage to an occasional lost flower/tomato.

Feeling the benefit to having a place for the kids to play outweighed the damage being done, we opted not to make this an issue.

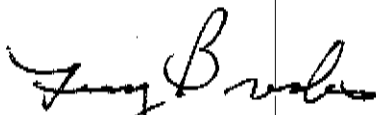

Lost limbs on the apple tree due to storms, and removal of the pine tree to erect a garage (at the end of our driveway, where the pine tree stood) has resulted in balls now traveling further onto our property hitting our house, vehicles, and of course soon the garage.

While potential damage to property is certainly of a concern, even more worrisome is the fact that when we are working, outside, or even simply going in/out of our home we have become "targets."

As I mentioned, I previously contacted Mr. Anderson the day a ball landed directly beside me 3 times within a 10/15 minute period.

Obviously the Township needs to address this dangerous situation promptly to insure our safety.

Thank you for showing an interest in this problem.
